## Tally Charts

A tally chart is a table used for counting and comparing the numbers of multiple classes of a data set. The initial data is recorded using 'hashes' or tally marks, organised into groups of five. This makes keeping track of the total number much easier as you can simply count the groups of tally marks by five.

My Bug Count

Bug	Tally	Total
		2
	<del>    </del>	5
		3
		2
		4
	<del>    </del>	7
